weelth of that section is said to be very great, there be ing already in operation, in four counties, one hundred an fifty furnaces, forges, rolling mills, &c. The manufacturing and sgricultural interests are also very extensive. These facts show that the local travel and freight of the road would be large, while the through freight would be immense, as a great trade with the West would be, without doubt, carried on over this road. Eastern capitalists con-template constructing this road, in connection with some capitalists in the Northern part of this State. It would not be of much utility until the Fitchburgh and Burling-ton road is finished, and it is not impossible but that the

There has been a great falling off in the shi produce from Buffalo, cast, via the canal, this season, to the 1st of June, compared with last year. The exporta-tion of nearly every staple article is less. We annex a table showing the shipments east for lour seasons:—

 <th We annex a table giving the value of merchandize ex-ported from the United States in 1841, '42, '43, and 1841, distinguishing the amount shipped to each country with which we have any trade. The aggregate value of our exports in 1843 and 1844, was much less than in 1841 and 1842. Our export trade with the North of Europe has, within the past two years, been limited compared with previous years. The value of our exports to China in 1844, was not one-half the value of those for the previous mine worths ending lune 20th 1844. nine months ending June 30th, 1844. Our export trade with Cuba and Brazil, compared with last year, has increased; but compared with the two previous years, there has been quite a falling off.

foreign trade of the past nine years amounts to \$137,275, 714, and the aggregate balance in favor of the United States to \$43,041,256, leaving a balance sgainst this country of \$94,234,488. The period included in this statement try of \$94,234,458. The period included in this statement covers several of the speculative years, when the importations had reached a higher point than ever before. The balance against the United States for this period, is therefore much greater than it would have been had we included more time in our tables. For the last three years, or since the revulsion in commercial affairs in 1841, the balance on our foreign trade, each year, has been in our favor, and it is our firm belief that hereafter, we shall in proportion to the trade of the country, export more and import less. The various manufactories building up in all parts of the country, are rapidly supbuilding up in all parts of the country, are rapidly sup plying the domestic demand for merchandize heretofore ported for consumption, while our exporting producour own limits, many articles herotofore furnished by foreign nations; we are by this, not only keeping ebt to other countries, and keeping within our-the value of these manufactures; but we are ng the creditors of the world. In 1830, '22, '25, 36, and 37, our manufacturers were unable to compete with the manufacturers of Europe, notwithstanding the protection extended by government in the high tariffs of 1828 and 1832. The inflated condition of the currency and the system of credits at that time, completely annulled the protective features of the tariff, and filled our markets with the fabrics of European manufactories Since the explosion of the inflated system of banking and Since the explosion of the innated system of balance of credits, and the establishment of a sound currency, the manufacturing interests of this country have been steadily improving. We now consider them settled the manniacturing interests of this country have been steadily improving. We now consider them settled upon a solid basis, which any reduction or modification of the tariff cannot weaken. A few years will suffice to destroy the markets in this country for foreign manufac-tures, when the little difference in the principles of the two great parties of this Union, in relation to the tariff, will disappear, and all sections of the country will be

HAVE slways on hand a complete assortment of every description of Paper to be found in a paper warehouse.

They own the large Paper Mill at Winder Locks. Connecticat. (formerly the Windsor usannfacturing Company) operating nime Engines and two 62 inch Machiners, which enable them to supply all orders for Paper, on the most reasonable terms, and with the utmost despatch.

BOOKKEEPING, &c.

No. 85 CEDAR STREET.

C. C. MARSH, Accountant author of the popular works on Bookkeeping, and long established in this city as a teacher and practical accountant, continues to give thorough and practical instruction in Bookkeeping, Commercial Arithmetic, and mercantile writing. Prospectuses with terms, hours, references, &c. &c. obtained at the rooms.

CAFE TALMA.

No. 7 Park Pince.

Third House from Broadway.

THE subacriber begs leave to inform the citizens of New York, and straugers visiting this Metropolia, that he has leased the above premises, (convisited in location, being the most central down town, while the beauty and advantages of the street have anyays been pre-eminent, by which has been opened as a Restaurant et Cafe; where, in both departments, every attainable delicacy will alw yays be found, and served up in such amanner that shall leave nothing for the most fastidious to desire, at very reasonable prices.

There are in the establishment several large, airy, and well furnished rooms, combised with the situation, reader them very desirable for gentlemen, which are respectfully offared to let at low prices.

The proprietor assures his many friends and acquaintances, formed duting eight years of public life in this city, that a call formed duting eight years of public life in the situation, the correction of the most formed duting eight years of public life in the situation.

desirable for gautlemen, which are respectfully offared to let at low prices.

The proprietor saurres his many friends and acquisitances, formed during eight years of public life in this city, that a call from them will be appreciated, and no pains appared to please and accommodate in any and every particular, ried lifter the will be appreciated, and no pains appared to please and accommodate in any and every particular, ried lifter.

CHEAP GLASS CUTTING ESTABLISHMENT, ST ELIZABETH STREET.

WE, the undersigned, have on this the second day of June. 1815, entered into a copartneyship for the jurpose of carrying on the Glasscruting Business, at James Neeve' Old Establishment, if Elizabeth street, near Grand. The trade generally will find it to their advantage to call and examine our extensive assortment of Cut Glass of every description, before purchasing elsewhere. Having made such avrangements as will enable us to carry on business most extensively, and at a much less per centage, we feel ourselves fully pibe to compete with any other establishment in the trade. We cheerfully invite all those who are un equanted with us, and the quality of our glass, as well as our style of enting, to call on any of the old enstoners of James Newes (they being among the most even-sive dealers in Cut Glass and China Ware) assuring them a well as list old patrors, that we shall still continue to furnish the same quality of goods at an astonishingly less price. We would also state to glass merchants reading out of the city, that all orders received from them will, as usual, he punctually attended to, and carfully packed.

NEAVES & WALLIS.

NB—All articles of Glassware made and cut to pattern at the shortest notice.

Of Tis FIELD respectfully informs his friends and the public that he has arrived in the city and taken quarters at the United States Hotel, his entrance through the bar, or 196 Water street; when he has a number of Bassford's improved Billiard the shortest notice.

Of the RCHANTS AND OTHERS, who have a promising and of

struct; where he has a number of Bassford; improved Eillard Tables, on sale or for playing, and will be happy to have them tried. His bar is well stocked with materials for making Sherry Cobblers, White Lions, &c. &c.

To MeRCHANTS AND OTHERS, who have a promising son of twelve or therealouts—An American of about 20, who has more intellect than wealth, (no egotism here) and who, we would say, has led a strange and eventful ife, would like a tranquil home in some generous minded family, for which he would consecrate his best energies to the intellectual elevation of a virtuous and aspiring youth. He might adduce restimonials from distinguished merchants, scholars, and statesmen, but he is so poor—his career has been so calamitous, so apparently inconsistent, and at war with virtue, that he was wont to associate as an equal. References, however, of the highest order, will be given, if absolately required. But it there he a centleman of this city, who has a youth of the above description, and who will place him under the advertiser's care, without references, and ask no questions as to his melancholy history, ere one yearhas elapsed, the happy father may, may, he shall enthusiastically, rejoice at the almost incredible expansion of his offspring's intellectual powers. It is to be hoped, that none but those who are truly sincere, will answer this advertiser's hosom. Please address DEMOSTHE. NES, through the Herald office.

WELSH AND MANN'S
MAGNIFICE NT CIRCUS.

JERSEY CITY. Friday, 6th June, 1845. Friday, 6th June, 1845.

This Creus Company, comprising Performers unequalled in skill and numbers, and a Troop of Horses unrivalled in the history of the Area, will arrive this forenoon, in TERSEY CITY

and having selected a most favorable location in the neighborhood of the Glass Works, will perform under the Largest Parvilion in the World! capable of accommodating 10,000 persons, on THIS EVENING.

THIS EVENING.

The generous reception the Company experienced at the few Towns in the Jerseys, that their limited time permitted them to visit, on their first route for the season, gives the assumace that the people of Jersey City will avail themselves of this opportunity of witnessing the performances of the most numerous, efficient and talented Company of Equestrians that ever were exhibited in any country.

For particulars of the Exhibition, see the biles, large small.
Pavilion open at 7½ o'clock. Performances commence at 8
o'clock.

o'clock.

Saturday, 7th June.

At 10 o'clock, on Saturday Moraing, this Grand Spectacle will disembark their immense Train of Lequestrians, at the foot of Courtlandt street, in Full Costume, Horses most gorgeously caparisoned, with a BAND WAGON.

Most Brilliantly Embellished, Drawn by Eight Beautiful Cream Colored Horses!

And will, from that point, take up a line of PROCESSION.

From Courtlandt up Breadway to Union Square, from Union Square down Bowery to Chetham steet, from Chatham street down Broadway to the Battery, where the imposing process of embarking the Men, Horsea, Wagons, &c., will take place, previous to the fixed departure of the Company for Albany, where they will make their first Northern Exhibition

On Monday Next.

This will be the grandest Equestrian Procession that ever mosed through the circ.

ay, where they will make their first Northern Exhibition
D. Monday Next.

D. This will be the grandest Equestrian Procession that ever passed through this city.

LECTURES ON ANIMAL AND MEDICAL MAGNETISM.

D. R. STRONG would announce to the public that he will give a Course of Lectures upon the science of Magnetism at the two following places, viz:—on every Tuesday evening, commencing May 27th, at the Franklin Hall, Chatham square; every Friday evening at St. Luke's Buildings, corner of Hudson and Grove. The object of these Lectures are to elicit truth, and place the science upon grounds that will be out of reach of the charlatans who so numerously thrust themselves before us, claiming attention to their fests of false powers and deception. Various experiments will be tried in the course of these Lectures in applying Electricity in different forms to the magnetized subject. Lectures will commence precisely at 8 o'clock. Admittance 12½ cents.

FIRE WORKS.

Admittance 12% cents. je2 lw*m

BY THE SOUTHERN MAIL.

The Mexican Instalments.

Washington, June 4, 1845.
In consequence of the notice published in the organ of yesterday relative to the Mexican instalments, have been induced to investigate the subject in orler that the various claimants in your city and elsewhere, may know exactly how the case stands. I have procured a synopsis of the report of the Secre-tary of State, which I transcribe for the use of your columns. First in order is the following extract from Mr. Shannon's despatch to Mr. Culhoun, dated the 21st of September, 1844:—

"The instalments which fell due on the 30th of April and 30th July last under the convention of the 20th January, 1843, were paid to the agent of the government appointed to receive and transmit the same, on the 7th ult."

appointed to receive and transmit the same, on the 17th ait.

This is certainly explicit, and is expressed in positive and unequivocal language. Next in order appears extracts from Mr. B. E. Green's letters to Mr. Calhoun, dated, Washington, the 17th of December, and 25th of January, which discredit Mr. Shannon's official despatch, and deny that payment was made, after which a translation of Mr. Rejon's note to Mr. Shannon, as follows:

NATIONAL PALACE, MEXICO, Sept. 2, 1844.

The undersigned, Minister of Foreign Relations, has the honor to acquaint the Envoy Extraordinary and Minister Plenipotentiary of the United States of America, that his Excellency, the Minister of Finance, has informed him under date of the 27th August last, that the instalment due on the 30th of April in this year, and that due on the 30th July last, pursuant to the convention of the 30th January, 1843, have been paid to the agent appointed by the government of those States, and that this notification had been delayed in consequence of the vast business of that department, &c. &c.

MANUEL CRECENCIO REJON.

The next in order is an extract from the act of

MANUEL CRECENCIO REJON.

The next in order is an extract from the act of Congress, approved on the 3d of March last, entitled an act making appropriations for the civil and diplomatic expenses of the government, &c., &c., after which the Honorable Secretary remarks as follows:

congress, approved on the 3d of March last, entitled an act making appropriations for the civil and diplomatic expenses of the government, &c., &c., after which the Honorable Secretary remarks as follows:—

"These papers contain all the information in the possession of this Department relative to the supposed payment by the Mexican government of the Instalments under the convention referred to, which were due on the 30th April and 30th July, 1844.

"It appears that the note of Mr. Rejon to Mr. Shannon bears date the 2d of September last, and states that he had been informed by the Minister of Finance, in a note of the 27th August, that the instalments due on the 30th April and 30th July, had been paid to the kgent appointed by the government of the United States. The Minister of Finance apologizes for his delay in communicating this information to Mr. Rejon on account of the vast business of that Department.

"It appears the state of the States of the States of the April and States of the States of the States of the April and States of the States of

Washington. (Correspondence of the Herald !

WASHINGTON, June 4, 1845. Mexico-Those Instalments-Consultation at the White House, supposed about England, Mexico and Texas, or upon Consular Appointments-In-structions to Office-Seekers from an old 'un-Naval Court Martial-Extraordinary Funaticism of the Tectotallers, &c. &c.
The Union is holding out the idea that the instal-

ments of the Mexican indemnities, for April and

July, 1844, have not been paid over by the Mexican government to the agents of the United States. We firmly believe to the contrary. Col. Benton, in a speech upon the general appropriation bill of the last session, showed conclusively to our mind that the money had been paid over, and that if there were a defalcation (as there certainly was and is), it was on the part of the agents of the United States. Mr. Shannon, our last minister to Mexico, who, we believe, is on his way to this city, and Mr. Green, have entirely failed in establishing the idea that those sforesaid instalments have not been redeemed—We rely upon-Col. Benton. If there he a man who has a thorough knowledge of our Mexican relations, it is the Colonel; and he has positively assured us that the aforesaid instalments, by a great effort of the Mexican government, were redeemed. Gen. Thos. J. Green, of Texas, has just arrived in town, and, we are informed, delivered a large package of decuments to the President last night, more likely upon the subject of annexation than upon these Mexican indemnities, and therefore we will dismiss him for the present. A section of the last general Appropriation Bill authorized the payment to our citizens of the April and July instalments of last year of the indemnities accruing from Mexico, in the conviction that Mexico had met these obligations to our Government by a payment of the money to the anthorized agents of the United States. We are now told that the administration—in the absence of satisfactory evidence that the money was paid over—has determined to withhold the payments to our citizens from this fund directed to be made in the civil and diplematic bill of Appropriations. There is something, we fear, exceedingly rotten in this business, something in which we apprehend Mr. Tyler's agents will be held accountable to Mexico and to the United States, something equivalent to Swartwouting, and perhaps a little worse. But if it shall turn out that Mr. Tyler's mercantile firm at Vera Cruzdid not receive the money, or an equivalent therefor, then, of course the Government of Mexico will be held responsible persons in accounting for the failure of the transfer of speech upon the general appropriation bill of the last session, showed conclusively to our mind that the noney had been paid over, and that if there were a
